

Amerlite®

Amerlite®, the world standard of reliability for underwater lights, features a stainless steel shell, 8-3/8 in. prismatic tempered glass lens, and stainless steel face ring with uni-tension clamp. Amerlite®s are UL listed to install in full- sized Pentair Pool Products, American, PacFab and Purex niches.

SpaBrite®

SpaBrite® lights are available with either stainless steel or triple chrome-plated brass face rings. This incandescent light is perfect for spas and areas where space is not available for a full-size light.

SpaBrite® lights install in small plastic or stainless steel Pentair niches. Each light comes complete with a magenta and blue lens cover.

Intellibrite®

Intellibrite® automated color-changing pool and spa lights feature LED technology – the wave of the future in energy efficiency, lifetime value, quality of light, and controllability. With Intellibrite®, combinations of individual colored LEDs are mixed and matched to achieve a vibrant spectrum of colors.

FiberFall

Utilizes technology, through the ambient Polaris touch of any type of standard connector for easy installation, the reliable unit is available in standard sizes or can be built to your specifications.

fiber-optic sending color waterfall to create and interest. The FiberFall adds a class and color to pool. With one plumbing

Polaris AfterDark™

Polaris AfterDark™ fiber-optic lighting system inspires your pool to come alive when the sun goes down.

The variable two-speed color wheel produces nine subtle color changes, perfect for parties, or stops on your favorite, for every day use. The Polaris AfterDark controller is low profile and easily hidden by foliage.

Suitable for lighting underwater or perimeter applications
