

**MerMade Strainers**

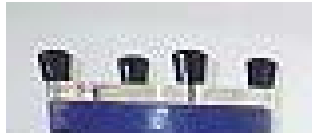

**FRP Hair & Lint Strainers**

Strainer Housings are fiberglass reinforced plastic construction. FRP and stainless steel components assure that wetted parts will not rust. Features include: quick opening latches, see thru lid, and a stainless steel basket. Flanged connections are drilled to ANSI 150 lb. standard, Strainers are pressure tested to 50 PSI.

## Nemato

### Eccentric FRP, "T" Type Hair and Lint Strainer - c/w Clear Lid and Stainless Steel Basket

Available in 9 basic influent/effluent designs ranging from 2" through 14". Nemato's NSS-Series FRP Strainers are designed to meet working pressures up to 20 psig and produce 0 psig head loss when clean; resulting in longer strainer operation without excessive cleaning. All wetted materials are food grade, complying with FDA and NSF requirements. Internal components consist of an 18 gauge stainless steel basket with a location block for ease of installation. Its pleated shape provides maximum coverage area for ease of cleaning in limited space.
