

Skimmers

Skimmers are molded of rugged, non-corrosive ABS and have no joint below water level. They feature a cover collar allowing 1 1/2" vertical adjustment and a snap-in-weir that automatically adjusts to 4 1/2" variation in water level.

Sta-Rite Surface Skimmers08650-1403
(No Equalizers) NSF Listed

1	Grate/Frame - White	8650-0169
2	Basket and Handle	8650-0007
3	Weir	8650-0022

Deluxe

Standard

All models have two bottom connections, plus an overflow connection. In all models the strainer basket is secured in place by a bayonet locking device, for easier removal and to prevent the basket from floating out of position.

ASTRAL Deluxe Skimmers introduces new level of unique features, heavy duty construction and competitive pricing and are quickly becoming the choice of the most demanding, quality builders throughout the industry.

Inlets

Sta-Rite Adjustable Floor Inlet

Adjustable outlet flow, molded ABS with internal threads for pressure testing.

- Sta-Rite Adj. Floor Inlet-white 8417-0000
- Sta-Rite Adj. Floor Inlet-black 8417-0200

Sta-Rite Adjustable Wall Inlet

Directional ball inlet fittings are pressure-molded from durable ABS thermoplastic resin and require no electrical bonding. Besides having no internal obstructions to cause plugging, they enable the return stream to be deflected in any direction within 25 degrees of the central position.

- Sta-Rite Adj. Wall Inlet..... 8429-0000

Jets

The revolutionary ULTRA JET has many innovative, patented features. It has optional Inline or individual air hookups. For Inline air all that is required is 1/2" pipe and fittings. Individual air supply can be obtained by simply inserting a 1/2" pipe down through the center.

Hydrostatic Relief Valve

Spring loaded, leak proof self cleaning O-ring seal. Non-corrosive, non-conductive.
